# AUTOMOTIVE PRODUCTS Aerosol Plastics & Vinyl Dressings

Dashboard and Vinyl renovators 500ml aerosols (various - please see price list or ask)

A variation of fragrances. For use on interior and exterior plastics. Restores plastic and vinyl back to its original condition.

Tyre Foam (JU 158)

Saves the inconvenience of liquids. Spray on and simply wipe off. Removes dirt and grime and leaves a glazed finish in 1 operation.

## Air Fresheners, De-odourisers & Dyes

Air Freshener Hanging Circle (Airfreshnerscircle)

Aerosol Air Fresheners (various - please ask)

Ideal for use in coaches and conference rooms. Removes all unwanted odours.

Ashtray Granules Fragrances (various - please ask)

Choice of pleasant smelling granules that release the fragrance each time they are lightly agitated.

Liquid Lemon / Bubble Gum Deoderisers (JU 155 - 154)

Leaves long lasting fragrance against cigarette smoke and other offensive odours.

Can be diluted up to 50/50 with water leaving a milder fragrance.

## Alloy Wheel Cleaners & Protector

Alloy Wheel Cleaner H/D Liquid Gel (JU 138)

A strong cleaner, safe to use on all alloy wheels including polished alloy. Slightly gelled to ensure the product remains on the surface of application longer to allow for penetration of brake dust which can be simply washed off. pH 1

Alloy Wheel Cleaner Liquid (JU 002)

Developed to remove brake dust and other forms of dirt and grease. Use on regular basis.

Apply undiluted to the alloy wheel, allow to penetrate for 5 mins then simply hose or sponge off with clean water. pH 1

Alloy Wheel Protector (JU 005)

A clear protective film that ensures the alloy wheel maintains its original appearance. Chemical resistant to ensure a long lasting protective coating making brake dust and dirt easier to wash off.

## Brake Cleaner Liquid (JU 097)

A fast drying and effective brake cleaner that removes all residue from the brake discs. Available in liquid form which can be applied by a trigger spray container. Safe to use on all areas surrounding application.

## Brake & Clutch Cleaner Aerosol (JU 003)

Fast drying, cleans efficiently. Safe on surrounding areas of application.

# Dewaxers

## Co-Polymer Wax Remover (JU 015)

Removes traditional co-polymer waxes. Diluted 50/50 with water and applied at low pressure. Safe on exterior plastics and rubbers. Fully biodegradable. pH>13

## De Waxer (JU 018)

# Engine Cleaners & Finishers

## Decarbonising Fluid (JU 027)

Prevents carbon build up and deposits in engines resulting in better fuel economy and reduced emissions.

## Engine Cleaner / Degreaser Heavy Duty (JU 031)

This product is an emulsifiable solvent that can be sprayed or brushed on. Ideal for cleaning plant, machinery, engines, etc.. Removes oil, grease and tar stains from the engine and under bonnet area. Allow to act for a few minutes after application, then remove with a jet of water. Will not affect paint or rubber.

## Engine Degreaser (low odour) (JU 032)

A low odour degreaser for engines and chassis. Brush on, leave for a short while then rinse off.

## Engine Degreaser Aerosol (400ml) (JU 157)

A low odour degreaser for engines and chassis. Brush on, leave for a short while then rinse off.

## Engine Lacquer (JU 033)

A quick drying liquid product. It leaves a hard protective shining film which seals out damp and rust. Can be used on engines and on any non coated metal parts that require a protective film. Dry engine after washing and cover carburettor with a plastic bag prior to application.

## Engine Lacquer Aerosol (JU 159)

A quick and easy to use aerosol that restores the appearance of the engine back to it's original condition. Safe to use on all surfaces of application.

## Fabric Protector Liquid and Aerosol (DB 17/DB 25)

A solvent based product that is touch dry within 30 minutes. Can be applied to all fabric and cloth material (not suede or leather). After application, areas of treatment become water proof against all liquid spillages.

## Leather Feed Cleaner & Protector (DB 20/DB 28)

A leather feed and protector all in one that also cleans the leather. Penetrates into the leather to keep it supple and flexible, preventing it from drying and cracking. Also leaves a pleasant fragrance after treatment. pH 8

# Floor Mats & Seat Covers

Floor Mats Blue Foot Print, 250 per box (SUN 087)

Seat Covers, 100 per roll (SUN 066)

# Glass & Window Cleaning

## Screenwash (JU 074)

This product is alcohol based which will clean the windscreen without affecting the paintwork.

A concentrated product that can be diluted down by up to 10 -1. It will not smear or in any way damage the blades.

Effective for the removal of dried fly stains. Contains no methanol and is not flammable.

To protect in all extreme cold weather conditions.

## Screenwash De-Icer Aerosol (500ml) (JU 017)

An alcohol based product that quickly disperses ice in all temperatures.

## Screenwash De Icer Liquid (JU 100)

A concentrated alcohol based liquid that quickly and effectively breaks down and removes ice. Safe to use on all surfaces.

## Spirit Glass Cleaner (JU 077)

A non smearing, quick drying easy to use glass cleaner. For interior and exterior use. Can be further diluted upto 50/50 with water for light cleaning. Can also be used as a dry general purpose cleaner.

Safe to use on all surfaces of application.

## Rain Screen Water Repellent (DB 36)

To be applied after the Jewelultra Spirit Glass Cleaner has been used to thoroughly clean the glass.

Leaves long lasting water resistant film. Eliminates the requirement for window wipers whilst the vehicle is moving.

**Bumperbrite Silicone (JU 012)**

This product has been specially developed for use in areas where paint spraying is carried out – it is a bodyshop friendly product. Designed to remove staining and discolouration of all interior and exterior plastic and rubber components. Will break down dust ingrained into stippled plastic surfaces.

**Interior/Exterior Plastic Vinyl Protector (DB 26/27)**

Outstanding for the care of vinyl. Gives long lasting protection and acts as both a cleaner and a sealant.

This product may be used on any colour vinyl.

After use, a water repellent film will remain shielding the plastic from rain and general traffic film.

For interior use as well as exterior due to the product containing a pleasant fragrance.

**Replenish (JU 156)**

Cleans, protects and conditions all exterior and interior plastic, vinyl and rubber surfaces. Leaves a long lasting high gloss finish which is resistant to water. Effective for coating tyres when brushed or sprayed on. Lightly fragranced to remove undesirable odours from used cars interiors.

**Rubber Sheen Non Silicone (JU 143)**

A liquid based product that is specifically designed to clean plastics, vinyl's and rubber back to their original condition.

Easy and safe to use on all surfaces.

**Tyre Dressing (JU 139)**

An easy to use liquid that can be sprayed or wiped onto tyres and all exterior plastics. Cleans and protects in one operation leaving an original appearance.

## Interior & Upholstery Cleaners

**Upholstery Cleaner Aerosol (JU 092)**

An aerosol foam. Breaks down all forms of dirt and grime on all fabrics, plastic and vinyl.

**Upholstery Cleaner (JU 091)**

A blend of detergents and alkalis. This product can be used on fabric, vinyl upholstery, door panels and on windscreens to remove insects deposits, grease and smears. Can be diluted up to 4 parts water to 1 part product. Wipe on with cloth, sponge or brush, alternatively spray from a distance of 15 cms. Leave to penetrate for about 10-20 seconds before wiping off with a damp cloth. Rinse off with a sponge or cloth. pH>12

**Cleaner Polish Aerosol (JU 149)****Machine Upholstery Cleaner (JU 052)**

Especially suited for use with hot water extraction systems. A hot solution cleans the material and is immediately drawn off with the loosened dirt under vacuum without leaving residues and avoiding excessive wetting of the cloth. Does not leave a sticky surface. Cleans with the minimal amount of foam. No further vacuuming is needed when product dries. pH>13

**Interior Cleaner Ready to Use (JU 048)**

## Maintenance Products

**Moisture Repellant Liquid (JU 099)**

A liquid release agent that can be sprayed on or applied with a brush.

**White Grease Aerosol (JU 152)**

A lubricating agent that can be used in all areas of industry. Supplied with spray nozzle to reduce wastage.

**Multi Usage Maintenance Aerosol Spray (JU 153)**

A top quality release agent that ensures all fittings and attachments can be easily loosened and removed

**Silicone Spray Aerosol (JU 141)**

**Jewelultra's new range of 1, 2 & 3 polishing compounds** have been designed using state of the art technology. Suitable for use on all modern automotive paintwork - they remove coarse and fine scratches from both fresh and fully-cured coatings -

**“Producing brilliant, high gloss finishes everytime.”**

Medium Cut Compound (JU 251-MC01)

Ceramic Polish (JU 251-C02)

Hologram Free Polish (JU 251- HF03)

Cut Back Colour Restorer (DB 30)

Suitable for use on all paintwork, including water based lacquers. For the restoration of oxidised and severely scratched paintwork.

Clean Cut (JU 129)

A mild abrasive liquid product used to restore neglected paintwork back to its original condition. Can be used by hand or machine, with or without water.

Premiere Cut Compound Paste – Non Silicone (JU 007)

Hand and Machine use. Suitable for use on all paintwork, including water based lacquers. For the restoration of oxidised and severely scratched paintwork. Also used for preparation of paintwork after paint rectification has been carried out. Flattens "orange skin" and removes blemishes. The design of this product allows for precise and efficient preparation of paint.

Will not dry when used in conjunction with foam polishing pad.

Dual Finish (JU 006)

An efficient preparation product that can be used by hand or machine. Suitable for use on all paintwork, including water based lacquers. Ideal for use to further prepare the paintworks surface after the Jewelultra Premiere Cut has been used to flatten or restore. Removes circular and light scratches from the paintworks surface.

Speedy Wax (JU 019)

A liquid cream wax for application by trigger spray or hand. Leaves a long lasting high gloss finish. Quick and easy to use.

New Car Polish - Ultraglaze (JU 055)

Probably the quickest, easiest to use and most effective new car polish available. This product will not whiten exterior plastics or rubbers and leaves no dust on removal. Leaves a long lasting finish which can be applied to all types of new and nearly new vehicle paintwork. It also removes minor hairpin scratches, hazing and the greasy residue caused by inferior polishes.

Used Car Polish - Diamondcut (JU 093)

Can be safely used on all types of new and used vehicle paintwork including water based. Extremely quick and easy to use and does not dust. Removes minor scratches, minor blemishes and hazing. Leaves a long lasting shine, does not whiten exterior plastic and rubbers.

Clay Bar Grey (FINE) (SUN 227) For the removal of stains in the paint.

Clay Bar Purple (COARSE) (SUN 226) For the removal of stains in the paint.

## AUTOMOTIVE PRODUCTS

Machine Buffer (SUN 157)

Pad Super Hard Compound 14mm Ref 520 (Yellow) (SUN 231)

Pad Compound 14mm Ref 500 (Orange) (SUN 021)

Polishing Pad 14mm Ref 503 (White) (SUN 022)

Pad Super Soft 14mm (Black) (SUN 023)

Pad Plate Fastfix Vel 511 (SUN 010)

Pad Compound Fast Fix Vel 511 (Orange) (SUN 011)

Pad Polishing Fastfix Vel 512 (White) (SUN 012)

Pad Super Soft Fastfix Vel 531 (Black) (SUN 013)

## Scrapers & Accessories

Metal Scrapers (SUN 003)

Scraper Blades, available in boxes of 100's (SUN 004)

Ice Scraper/Squeegee (SCRP)

Wire Wool (SUN 065)

## Specialised Protective Coatings

Auto Protector Liquid Wax (JU 005)

A long lasting liquid fast wax which can be applied by hand or trigger spray. Can also be used to protect the vehicles paint and exterior surfaces from harmful pollutants, rust and atmospheric elements.

Protective Glaze Sealant (DB 29)

One application leaves a deep brilliant, long lasting shine on all paintwork, including waterbased, metallic and cellulose. You will never need to polish you car again. Leaves a resilient finish, an airtight and a waterproof protective film. Its invisible diamond-hard elastic skin will preserve the car's paintwork.

Protective 151 Wax (JU 136)

A Latex based product that leaves a water white protective coating. Protects against all forms of pollution including bird lime and salt water for excessive periods of time. Can be sprayed on with air gun or trigger spray or applied by hand. Ideal for protecting underside of boats, on engine compartments and door panels of cars. Can also be used as to protect new vehicles whilst in transit or storage. Resistant against fallout from overhead rail lines.

Stage 1 (DB 22)

Pre glaze which when combined with Stage 2 forms Diamondbrite paint protection - see pages 16/17

Stage 2 (DB 23)

Glaze which when combined with Stage 1 forms Diamondbrite paint protection - - see pages 16/17

**Chewing Gum Remover Aerosol (JU 175)**  
Freezes the chewing gum so it can be easily removed.

**Chewing Gum Remover Liquid (JU 169)**  
The simple solution for removing dried out chewing gum on fabrics, plastics and vinyl's. It is quick, easy and effective to use. Does not discolour the surfaces of application and leaves no residue.

**Tar & Glue Remover (JU 079)**  
A fast acting low odour solvent for removing most types of adhesives and sealants. Slow drying properties to allow for a more effective working time. Leaves no oily residue marks behind. Safe to use on exterior plastics and rubbers.

## Spray Paints & Dyes

**Satin Black Aerosol 300ml (JU 145)**  
For the restoration of steel wheels back to their original condition. Quick drying and easy to use.

**Liquid Black Carpet Dye (JU 171)**  
Supplied in liquid for use with trigger spray for economy use. Jet black in colour which can be diluted with water to give lighter tints. Quick drying and easy to use. Suitable for use on all fabrics to restore the original colour.

**Silver Paint Aerosol 500ml (JU 147)**  
For the restoration of steel and alloy wheels back to their original condition. Quick drying and easy to use.

**Wheel Lacquer Dark Grey Aerosol 500ml (JU 214)**  
Ideal for use on alloy wheels. Protects all surfaces of application, leaving a glazed finish.

"Part of our extensive comprehensive range of exterior vehicle cleaning products - Our Traffic Film Removers are of the highest quality making cleaning the dirtiest of trucks, lorries and large vehicles easier for you with longer lasting results."

### Traffic Film Remover – Economy (JU 085)

Formulated for use through a pressure wash machine to clean cars and other road vehicles. Removes traffic film, and all forms of dirt. Cleans metal, plastic and paintwork without damage. For machine application, dilute 4 parts water to 1 part product then adjust detergent feed until detergent flow is sufficient to clean. For manual use, dilute 100 parts water to 1 part product. This product can be used to clean walls and floors. Fully biodegradable. pH 13

### Traffic Film Remover – Concentrate (JU 081)

A versatile heavy duty detergent which can be used for conventional hot water pressure cleaners. It is ideal for the cleaning of all surfaces with ingrained dirt and grease. Fast acting in breaking down all stubborn deposits. This product can also be used to clean walls and floors. TFR Concentrate should be pre-diluted with water as follows, prior to placing it in the detergent feed tank. Car exterior body work: 15 parts water – 1 part TFR Concentrate  
Commercial vehicle body work: 8 parts water – 1 part TFR Concentrate  
Chassis cleaning, heavy soling: 5 parts water – 1 part TFR Concentrate  
Fully biodegradable. pH > 13

### Grimebuster (JU 173)

A general purpose traffic film remover and cleaner which is safe to use by hand or machine after dilution. Can be used on all exterior and interior surfaces to break down all dirt and grime. pH > 13

### Traffic Film Remover – Concentrate HD (JU 083)

A heavy duty product used to break down thick dirt and grease in one easy and quick operation. Can be used through cold or hot water pressure washer or through hand spray after dilution with water. pH > 13  
Car body work: 25 parts water – 1 part product  
Chassis cleaning: 10 parts water – 1 part product

### Traffic Film Remover – HD Coach (JU 086)

The strongest of Traffic Film Removers within the Jewelultra range of products. Should be diluted to a minimum of 20 parts water to 1 part product then sprayed on with hand spray prior to washing off with a hot or cold water jet. Ideal for use on coaches, heavy goods vehicles and heavy plant machinery. Due to the strength of this product, dilution procedures must be followed. Gloves and face must also be worn. pH > 13. Washing by hand; Dilution rate; 150 parts water – 1 part product  
Car exterior body work: 100 parts water – 1 part product. Chassis cleaning: 50 parts water – 1 part product

### Traffic Film Remover with Wax (JU 082)

A cleaner and wax combined. Cleans effectively road soil from vehicles and deposits a shiny wax film on the vehicle surface. For use by hand or machine. An extremely cost effective way of cleaning cars ensuring a film remains after application. Forms a rich lather which readily rinses away. For machine application, dilute 4 parts water to 1 part product. For manual use, dilute 100 parts water to 1 part product. The product can be used in automatic washes. Fully biodegradable. pH 13

### Traffic Film Remover – Non Caustic (Alkaline) (JU 087)

A tremendously versatile and effective concentrated cleaner for a wide variety of uses. An economical product that is totally safe to use on all painted and non painted surfaces, including aluminium, with no adverse effect. This product can be diluted 2 parts water to 1 part product prior to application by machine. Dilute 25 parts water to 1 part product for manual use. pH 13

# Wash & Rinsing Products

**Diamondbrite Car Shampoo (DB 21/DB31/JU 013)**

A high foaming concentrate car wash that will not leave a residue after washing. Can be used on all exterior surfaces. This product is fully biodegradable as derived from vegetable oils. Suitable for use in car wash machines. pH 8

**Rinse Aid Gloss (JU 218)**

Designed for use in all Car Wash machines. It leaves a water repellent film which is immediately noticeable after rinsing. Non greasy and does not leave a residue. pH 6

**Wash & Wax Yellow (JU 125)**

Can be used by hand or car wash machine. Does not leave a residue after rinsing. Safe to use on all areas of application. pH 7

**Wash & Wax Premium (JU 177)**

A high concentrate top quality neutral product which can be used by hand or car wash machine. For hand use, dilute 2% product to dilution of water. For automatic car washes set the controls on the detergent tank to give the most effective finished results. Leaves no greasy residue. Water droplets immediately form on surface after rinsed off. pH 6.5

# Washing Tools

**Doubled Sided Wash Mitt (SUN 104)**

**Sheepskin Wash Mitt (SUN 110)**

**Power Blade (SUN 008)**

Removes water after washing.

**Hydra Flexi Blade (SUN 009)**

A larger alternative to the Power Blade.

# Bottles, Trigger Sprays & Liquid Dispensers

- Container Taps 5 Litre Containers (SUN 145)
- Container Taps 25 Litre Containers (SUN 146)
- Drum Syphon Hand Pumps 25 Litre Containers (SUN 074)
- Drum Syphon Hand Pumps 200 Litre Containers (SUN 089)
- Pelican Pump for 5 Litre Containers (SUN 124)
- Pelican Pump for 25 Litre Containers (SUN 183)
- 500 ml Polish bottle Transparent with flip Cap (SUN 099)
- 750 ml trigger bottles (BOTTRIG)
- Trigger Spray Top Chemical Resistant (SUN 139)
- Standard Trigger Top (SUN 105)

- 1.5 Litre Pump Sprayers (SUN 141)
- 2 Litre Pump Sprayers (SUN 081)

## Brushes

- Alloy Wheel (Mogg 15) (SUN 159)
- Atlasta Brush (SUN 083)
- Grill & Spoke (Mogg 16) (SUN 015)
- Dashboard (SUN 038)
- Pet Hair (SUN 143)
- Pru-Fit Pet Hair (SUN 064)
- Upholstery (SUN 034)
- Long Reach (SUN 179)
- Showroom Duster (SUN 186)
- Paint Brush, small (SUN 060)
- Paint Brush, medium (SUN 061)
- Paint Brush, large (SUN 062)

# Catering & Bar Hygiene

## Beer Line Cleaner (JU 016)

Bacterial pipes, tank and cellar tank cleaner. Taint free product for all types of beer dispensing products.

## Kitchen Degreaser (JU 079)

Non toxic, biodegradable solvent free product which removes stubborn stains and grease. Suitable for inside and outside, floors and walls, cookers and fat fryers.

## Machine Descaler (JU 215)

An acid based product for de-scaling of dishwashing and glass washing machines.

## Machine Dish/Glass Rinse Aid (JU 035)

Reduces scale build up and additives to reduce surface tension of water to allow fast drying, ideal where a sparkling finish is required, ideal for use in public houses, restaurants and hotels.

## Machine Dish/Glass Wash (Caustic) (JU 036)

Highly concentrated for outstanding cleaning in hard and soft water areas. Incorporates a special anti-tannin agent to enhance performance.

## Oven Cleaner THICK (JU 057)

Formulated as a thick gel allowing it to cling to vertical sides and prevent dripping off trays. Makes for a more effective clean.

# Chamois & Cloths

Chamois Block (Jewelultra Printed) (Chamoisblock)

Chamois Genuine, Premium Grade Large (SUN 025)

Synthetic Quality Chamois Large, Perforated 54 x 44 cm (SUN 116)

Synthetic Quality Chamois, Non Perforated 54 x 44 cm (SUN 115)

Micro Fibre Cloth, Green, Blue, Red, Yellow (SUN 165)

Microfibre Drying Towel (SUN 039)

Coloured Hosiery 4 kg box (SUN 125)

Stockingette Cleaning & Polishing Cloth 800 g Roll (SUN 220)

Stockingette Fine Cleaning & Polishing cloth, 2 kg (SUN 219)

Stockingette Cleaning & Polishing cloth 4 kg, Cut squares in a box (SUN 213)

Bug & Tar Remover, Purple (SUN 223)

Duster Premium Yellow (ClothY)

Stockingette Cleaning & Polishing cloth 4 kg, Cut squares in a box (SUN 213)

# Gloves

Latex and Vinyl gloves

Boxes of 100

Please ask for sizes

## Industrial Products

Battery Acid 1000 litre (JU 014)  
1.240 SG Battery Acid for charging new batteries.

De-min Water (JU 028)  
De-ionised water for topping up batteries.

Descaler (JU 020)  
Highly active acid based product that dissolves carbonates that hold scale. Cleans cooling systems, boilers, pressure washers etc.

Fallout Remover (JU 098)  
Extremely effective industrial fallout remover. Removes metallic fallout particles embedded in painted surfaces.

Total Weed Killer (JU 090)  
A very strong non-selective weed killer.

Water Softener (JU 128)  
Liquid concentrate for pressure washers and steam cleaners.

# Janitorial Products

## Beaded Hand Cleaner (JU 069)

Antiseptic gel with safe skin scrubbing compound with no unpleasant aromas. Copes easily with paint, grease, oil & tar.

## Hand Barrier Cream (JU 039)

Anti dermatitis cream for protection against paints, fuelm bitumen, oils and other irritants. Non sticky & greaseless.

## Nature Hand Cleaner (JU 049)

A completely natural product, ideal for sensitive hands. Contains a moisturiser.

## Velvet Hand Soap (JU 094)

A liquid hand soap ideal for public washroom areas.

## Bleach Standard (JU 009)

## Bleach Thick (JU 010)

High quality products for cleaning and sterilising.

## Blockbuster Thick (JU 026)

Very powerful concentrated product that clears drains, toilets and waste pipes. Dissolves fats, oils, soap and all organic obstructions. Care must be taken with this product. NEVER ADD TO HOT WATER. Always add acid to water.

## Detergent 25% (JU 023)

Medium active detergent for washing dishes, glasses etc.

## Detergent 43% (JU 022)

Highly active detergent for washing dishes, glasses etc.

## Detergent Sanitiser (JU 028)

High quality detergent/sanitiser to produce high levels of cleaning and disinfectant.

# Janitorial Products

## Easi Clean (JU 176)

Cleans baths, ceramic tiles, cars, kitchen workstops, plastics, uvpc frames, barbecue grills and childrens garden toys.

## Floor Cleaner Degreaser (JU 030)

Heavy duty product for interior and exterior. Extremely effective on many different soils and leaves a slip resistant, streak free & pleasant smelling finish.

## Hard Surface Cleaner (JU 042)

Multi-purpose general cleaner. For use on all surfaces. This product can be diluted up to 50 parts of water to 1 part of product for manual use. It is non caustic therefore safe to use on all surfaces. pH>13

## Multiclean (JU 157)

An all round cleaner that quickly removes all dirt and grime. Can be diluted 10 parts water to 1 part product. Safe to use on all fabrics, can also be used as a degreasant. (Non Caustic)

## Pine Gel (JU 065)

An all purpose (bacterial) cleaner & disinfectant, leaves a slip free finish. Suitable for most floors and hard surfaces.

## Pine Gel HD (JU 068)

A highly concentrated dilutable product, use as spray buff or manually. Leaves a pleasant fragrance.

## Safe Clean (JU 045)

Highly concentrated natural biodegradeable product for cleaning floors.

## Toilet Cleaner Thick (JU 062)

Removes limescale, algae, metal oxide, uric acid and body waste deposits. Long lasting and leaves a pleasant fragrance.

## Toilet Descaler (JU 063)

High quality stain remover for sanitary ware. Sanitises, cleans, de-scales and re-odourises. Highly concentrated, not for use on stainless steel products.

# Paper Rolls & Toilet Rolls

Paper Rolls 2 pack (Blue) (SUN 133)

Paper Rolls 6 pack (Blue) (SUN 068)

Toilet Rolls (36 pack) (SUN 163)

Toilet Rolls Mini Jumbo (SUN 164)

Hand Towels C Fold (SUN 123)

## Sponges

Sponge Exterior (SUN 237)

Sponge Jumbo (Wrapped no label) (SUN 020)

Sponge Polishing (Mogg 24) (SUN 090)

Sponge Upholstery (SUN 028)

Sponge Whopper S109 (SUN 138)
